What is Innovation Day? A whole morning dedicated to student creativity and innovation. An entire morning for students to work on a <u>skill</u> or <u>piece of knowledge</u> they want to grow in. A morning for students to follow their curiosity and make progress towards a specific objective/goal that they choose. Students then present/share in the afternoon.

Why have Innovation Day? Creativity flourishes in an atmosphere of acceptance and trust. Montessorians recognize that each child, from toddler to teenager, learns and expresses himself/herself in a very unique way. Therefore, encouraging individual creative development is an integral part to the prepared classroom environment.
